

Instructions for authors

The Journal of the Austrian Entomologists' Association (AÖE) publishes original entomological articles, primarily in the fields of taxonomy, systematics, zoogeography and faunistics, in German and English. Since 2012 the journal has been released as an annual volume. Publication and editorial work are carried out on a non-profit basis. Priority is given to contributions by AÖE-members. Publications by non-members will be accepted only after direct invitation by the editorial team or for a fee of €20.– per printed page. By submitting a manuscript, authors guarantee that the respective work is neither published nor submitted elsewhere and that they and all co-authors are the owners of all rights to any parts of the manuscript (including, e.g., pictures, maps). If an article is accepted, the authors assign the non-exclusive, irrevocable, transferable, sub-licensable and unlimited rights of use to the publisher, for the printed work as well as for all identical electronic publications (PDFs).

The editorial board decides on the acceptance of any manuscripts for publication after obtaining the opinions of external reviewers. Unsuitable or qualitatively insufficient manuscripts will be rejected. The length of a publication should not exceed 24 printed pages, otherwise a fee of € 10.– per page will be charged for additional printing costs. The editorial team decides on any exceptions to these guidelines. Very long manuscripts may be published as supplement volumes. In these cases, the AÖE will cover the expenses for layout and mailing, printing costs must be covered by the authors. The first submission of a manuscript must be sent in electronic form (e-mail, data storage medium) to the editors (address see Imprint): text and tables in MS Word (without figures), figures as JPEG, TIFF or PDF files.

Manuscripts should be organized as follows: Abstract (in English), Key words, German summary, Introduction, Material and method, Results, Discussion, Acknowledgements, References, Authors' addresses. Taxonomic publications may follow the traditional scheme. Only the scientific names of genera and species are to be written in italics, names of authors (taxa and references) are to be written in small caps (e.g., *Apatura metis* FREYER, 1829). Names of persons not related to the literature (e.g., collectors, curators) are not to be written in small caps. The use of majuscules (all caps) is not permitted.

The references should only include publications cited in the text (author and year of publication). Listing taxon-authors is optional but encouraged. The formatting of citations and references is to be adapted to the format of the respective latest published issue. Examples:

Journal article:

DOUMS C., CABRERA H. & PEETERS C., 2002: Population genetic structure and male-biased dispersal in the queenless ant *Diacamma cyaneiventre*. – *Molecular Ecology* 11: 2251–2264.

Book chapter:

TSHERNYSHEV S.E., 2015: Soft winged flower beetles (Coleoptera: Malachiidae) of the Himalayan region, with notes on the Apalochrini, pp. 389–406. – In: HARTMANN M. & WEIPERT J. (eds): *Biodiversität und Naturlausstattung im Himalaya*, Volume V. – Verein der Freunde & Förderer des Naturkundemuseums, Erfurt, 580 pp.

Book:

BOLTON B., 2003: Synopsis and classification of Formicidae. – *Memoirs of the American Entomological Institute* 71: 370 pp.

CORBET P.S., 1999: Dragonflies. Behaviour and ecology of Odonata. – Harley Books, Colchester, 829 pp.

Online resource:

ANTWEB, 2015: Available from <http://www.antweb.org> [accessed 15 October 2015].

After acceptance of a manuscript, all figures must be made available to the editors as JPEG or TIFF files in printable quality: Line-drawings (black and white, no greyscale) with at least 300 dpi, photographs and other colour- or halftone-images with at least 600 dpi resolution (at 12.5 cm print-space width). Printing of coloured figures is free of charge. Morphological figures must have a scale bar.

Every author receives a proof to correct typing errors; substantial changes to the manuscript are not permitted at this point. The respective editorial deadline will be announced upon sending the proofs. The corrected proofs are to be returned promptly, any corrections arriving after the deadline cannot be considered.

Every author will receive a PDF of the publication. Ordering reprints is not possible.

With the publication of the printed volume, PDFs of all original articles will be freely accessible online via the AÖE website as well as the literary database of the ZOBODAT of the Biological Centre in Linz.
